

# Sample Preparation Machine

For Spectrometer Samples

## Salient Features

- ✓ Compact rugged ergonomic design
- ✓ Stand alone on shock absorbing mounts
- ✓ Non magnetic polishing area
- ✓ Built in sucking system for polished dust
- ✓ Ease of paper replacement
- ✓ With optional electric braking

## Specifications:

### Mechanical Dimensions

Height: 850 mm

Width: 400 mm

Depth: 400 mm

Polishing Area: 350 mm diameter

Main Motor: 440 V, 50 Hz, 1.5 HP, 3-Ph Heavy Duty Motor

Sucking Mechanism: 230 V, 50 Hz, Concealed Blower

## Accessory:

### Magnetic Sample Holder

- ✓ Ideal for small samples
- ✓ Improves yield by allowing smaller samples for analysis
- ✓ Facilitates better heat dissipation thus preventing discoloration
